Subject: Peterborough City Council Street Lighting Upgrade Project

Flag Status: Flagged

Good Afternoon

I am emailing to introduce myself my name is John Akester and I am the Customer Liaison Officer on the Peterborough Highway Services Street Lighting upgrade project. Peterborough City Council is upgrading 17,000 street lights to energy-efficient LEDs over a three year cycle across the authority area.

The LED upgrade project is taking place in two parts;

- initially we have been upgrading any existing sodium lanterns that are currently on steel street light columns with new LED lanterns. There will be no changes to the steel columns.
- street lights on the old concrete or cast iron columns will be replaced with new steel columns as well as LED lanterns.

The project is being rolled out a ward at a time across the city. The initial lantern upgrades started in Autumn 2016 and the column replacement programme started at the end of October 2017, with works programmed to be complete by summer 2019. For additional information please visit

<https://www.peterborough.gov.uk/residents/transport-and-streets/led-street-light-upgrade/>

I am contacting parish councils to see if you have any questions or concerns about the project in advance of it reaching your area. Please do not hesitate to contact myself via this email address or on the number below.

Thanks and regards

John Akester
Customer Liaison Officer
PCC LED Replacement Project
